

Everybody OTTA have a dog

We are the Hamm family, we live in central Kentucky, we have always been dogs lovers, and have had many different breeds over the years as pets. As our children have grown up, we have fallen even more in love with our animals. Somehow our love for dogs has extended even further into a family operated business. Our plan is to breed healthy, loving, companions for loving and compassionate owners. We love to see our puppies bring smiles to other families as much as they do ours.

We have AKC and CKC registered dogs and provide a 48 hour health guarantee to all our customers for the opportunity to seek a veterinarian check-up for the puppies. We do strive to breed only the healthiest of dogs and keep all of our dogs up to date on their vaccinations. Our kennel is kept clean and our dogs get the best possible care.

I got my babies (Maggie Mae & Brewster) from Regina & Danny. You couldn't meet more wonderful people. I got them a few months before my surgery, and they have been the loves of my life. They are the best babies, Ken and I drove down to Kentucky to pick them up, and you could just feel the love that these dogs are brought into this world with. If you are looking for your best friend or maybe your "children" as I was, please go to their site and see the wonderful selection they have.
